¹ See "Key Performance Indicators".

² Adjusted EBITDA is a total of segments measure. Adjusted basic and adjusted diluted earnings per share are non-GAAP ratios. Adjusted net income is a non-GAAP financial measure and is a component of adjusted basic and adjusted diluted earnings per share. These are not standardized financial measures under IFRS and might not be comparable to similar financial measures disclosed by other companies. See "Non-GAAP and Other Financial Measures" in our Q3 2024 MD&A for more information about these measures, available at www.sedarplus.ca and at investors.rogers.com.

³Adjusted net income includes depreciation and amortization on the acquired Shaw property, plant and equipment and intangible assets based on Shaw's historical cost and depreciation policies. It therefore excludes depreciation and amortization on the fair value increment recognized on acquisition of Shaw Transaction-related property, plant and equipment and intangible assets.

¹ Includes additions to property, plant and equipment net of proceeds on disposition, but does not include expenditures for spectrum licences, additions to right-of-use assets, or assets acquired through business combinations.

² Capital intensity is a supplementary financial measure. Free cash flow is a capital management measure. See "Non-GAAP and Other Financial Measures" in our Q3 2024 MD&A for more information about these measures, available at www.sedarplus.ca and at investors.rogers.com.

³ Under the terms of our dividend reinvestment plan, a portion of the dividends declared will be settled through the issuance of RCI Class B Non-Voting Shares.

| | | | | | | | |
| Debt leverage ratio ⁴ | 4.6 | 4.7 | 4.7 | 5.0 | 5.5 | 6.2 | 3.4 |
| Divided by: pro forma trailing 12-month adjusted EBITDA 4 | n/a | n/a | n/a | 9,095 | 8,960 | 8,650 | |
| Pro forma debt leverage ratio ⁴ | n/a | n/a | n/a | 4.7 | 4.9 | 5.1 | |

¹ For the purposes of calculating adjusted net debt, we believe including our US dollar-denominated debt at the hedged foreign exchange rate is appropriate as our US dollar-denominated debt is 100% hedged, making it a better representation of the economic obligations on this debt.

² For the purposes of calculating adjusted net debt, we believe adjusting 50% of the value of our subordinated notes is appropriate as this methodology factors in certain circumstances with respect to priority for payment and this approach is commonly used to evaluate debt leverage by rating agencies.

³ For the purposes of calculating adjusted net debt prior to closing the Shaw Transaction, we deducted our restricted cash and cash equivalents as these funds were raised solely to fund a portion of the cash consideration of the Shaw Transaction or, if the Shaw Transaction was not consummated, were to have been used to redeem the applicable senior notes excluding any premium. We therefore believe including only the underlying senior notes would not represent our view of adjusted net debt prior to the consummation of the Shaw Transaction or the redemption of the senior notes.

⁴ Adjusted net debt and debt leverage ratio are capital management measures. Pro forma debt leverage ratio is a non-GAAP ratio. Pro forma trailing 12-month adjusted EBITDA is a non-GAAP financial measure and is a component of pro forma debt leverage ratio. These are not standardized financial measures under IFRS and might not be comparable to similar financial measures disclosed by other companies. See "Non-GAAP and Other Financial Measures" in our Q3 2024 MD&A for more information about these measures, available at www.sedarplus.ca and at investors.rogers.com.

¹ Subscriber counts and subscriber churn are key performance indicators. See "Key Performance Indicators".

² Effective January 1, 2024, and on a prospective basis, we adjusted our postpaid mobile phone subscriber base to remove 110,000 Cityfone subscribers as we stopped selling new plans for this service as of that date. Given this, we believe this adjustment more meaningfully reflects the underlying organic subscriber performance of our postpaid mobile phone business.

³ As at end of period.

⁴ Effective January 1, 2024, and on a prospective basis, we adjusted our prepaid mobile phone subscriber base to remove 56,000 Fido prepaid subscribers as we stopped selling new plans for this service as of that date. Given this, we believe this adjustment more meaningfully reflects the underlying organic subscriber performance of our prepaid mobile phone business.

⁵ Mobile phone ARPU is a supplementary financial measure. See "Non-GAAP and Other Financial Measures" in our Q3 2024 MD&A for an explanation as to the composition of this measure, available at www.sedarplus.ca and at investors.rogers.com.

Key Performance Indicators

We measure the success of our strategy using a number of key performance indicators that are defined and discussed in our 2023 Annual MD&A and our QB 2024 MD&A. We believe these key performance indicators allow us to appropriately measure our performance against our operating strategy and against the results of our peers and competitors. The following key performance indicators, some of which are non-GAAP or other financial measures (see "Non-GAAP and Other Financial Measures" in our QB 2024 MD&A), are not measurements in accordance with IFRS. They include:

- subscriber counts;
- Wireless;
- Cable; and
- homes passed (Cable);
- Wireless subscriber churn (churn);
- Wireless mobile phone average revenue per user (ARPU);
- Cable average revenue per account (ARPA);
- · Cable customer relationships;
- Cable market penetration (penetration);
- capital intensity; and
- total service revenue.
