NOTE 1: NATURE OF THE BUSINESS

Rogers Communications Inc. is a diversified Canadian communications and media company. Substantially all of our operations and sales are in Canada. RCI is incorporated in Canada and its registered office is located at 333 Bloor Street East, Toronto, Ontario, M4W 1G9. RCI's shares are publicly traded on the Toronto Stock Exchange (TSX: RCI.A and RCI.B) and on the New York Stock Exchange (NYSE: RCI).

We, us, our, Rogers, Rogers Communications, and the Company refer to Rogers Communications Inc. and its subsidiaries. *RCI* refers to the legal entity Rogers Communications Inc., not including its subsidiaries. Rogers also holds interests in various investments and ventures.

We report our results of operations in three reportable segments. Each segment and the nature of its business is as follows:

Segment	Principal activities
Wireless	Wireless telecommunications operations for Canadian consumers and businesses.
Cable	Cable telecommunications operations, including Internet, television and other video (Video), Satellite, telephony (Home Phone), and smart home monitoring services for Canadian consumers and businesses, and network connectivity through our fibre network and data centre assets to support a range of voice, data, networking, hosting, and cloud-based services for the business, public sector, and carrier wholesale markets.
Media	A diversified portfolio of media properties, including sports media and entertainment, television and radio broadcasting, specialty channels, multi-platform shopping, and digital media.

During the three months ended March 31, 2024, Wireless and Cable were operated by our wholly owned subsidiary, Rogers Communications Canada Inc. (RCCI), and certain other wholly owned subsidiaries. Media was operated by our wholly owned subsidiary, Rogers Media Inc., and its subsidiaries.

Our operating results are subject to seasonal fluctuations that materially impact quarter-to-quarter operating results and thus, one quarter's operating results are not necessarily indicative of a subsequent quarter's operating results. These typical fluctuations are described in note 1 to our annual audited consolidated financial statements for the year ended December 31, 2023 (2023 financial statements).

Statement of Compliance

We prepared our interim condensed consolidated financial statements for the three months ended March 31, 2024 (first quarter 2024 interim financial statements) in accordance with International Accounting Standard 34, *Interim Financial Reporting*, as issued by the International Accounting Standards Board (IASB), following the same accounting policies and methods of application as those disclosed in our 2023 financial statements with the exception of new accounting policies that were adopted on January 1, 2024 as described in note 2. These first quarter 2024 interim financial statements were approved by RCI's Board of Directors (the Board) on April 23, 2024.

NOTE 2: MATERIAL ACCOUNTING POLICIES

Basis of Presentation

The notes presented in these first quarter 2024 interim financial statements include only material transactions and changes occurring for the three months since our year-end of December 31, 2023 and do not include all disclosures required by International Financial Reporting Standards (IFRS) as issued by the IASB for annual financial statements. These first quarter 2024 interim financial statements should be read in conjunction with the 2023 financial statements.

All dollar amounts are in Canadian dollars unless otherwise stated.

New Accounting Pronouncements Adopted in 2024

We adopted the following accounting amendments that were effective for our interim and annual consolidated financial statements commencing January 1, 2024. The adoption of these standards have not had a material impact on our financial results.

- Amendments to IAS 1, *Presentation of Financial Statements - Classification of Liabilities as Current or Non-current*, clarifying the classification requirements in the standard for liabilities as current or non-current.
- Amendments to IFRS 16, *Leases - Lease Liability in a Sale and Leaseback*, clarifying subsequent measurement requirements for sale and leaseback transactions for seller-lessees.

- Amendments to IAS 1, *Presentation of Financial Statements - Non-current Liabilities with Covenants*, modifying the 2020 amendments to IAS 1 to further clarify the classification, presentation, and disclosure requirements in the standard for non-current liabilities with covenants.
- Amendments to IAS 7, *Statement of Cash Flows* and IFRS 7, *Financial Instruments: Disclosures - Supplier Finance Arrangements*, adding disclosure requirements that require entities to provide qualitative and quantitative information about supplier finance arrangements.

Recent accounting pronouncements not yet adopted

The IASB has issued the following new standard and amendments to an existing standard that will become effective on January 1, 2027:

- IFRS 18, *Presentation and Disclosure in Financial Statements* (replacing IAS 1, *Presentation of Financial Statements*), with an aim to improve how information is communicated in the financial statements, with a focus on information in the statement of income.

We are assessing the impacts IFRS 18 will have on our consolidated financial statements.

NOTE 3: CAPITAL RISK MANAGEMENT

Key Metrics and Ratios

We monitor adjusted net debt, debt leverage ratio, free cash flow, and available liquidity to manage our capital structure and related risks. These are not standardized financial measures under IFRS and might not be comparable to similar capital management measures disclosed by other companies. A summary of our key metrics and ratios follows, along with a reconciliation between each of these measures and the items presented in the consolidated financial statements.

Adjusted net debt and debt leverage ratio

We monitor adjusted net debt and debt leverage ratio as part of the management of liquidity to sustain future development of our business, conduct valuation-related analyses, and make decisions about capital. In so doing, we typically aim to have an adjusted net debt and debt leverage ratio that allow us to maintain investment-grade credit ratings, which allows us the associated access to capital markets. Our debt leverage ratio can increase due to strategic, long-term investments (for example, to obtain new spectrum licences or to consummate an acquisition) and we work to lower the ratio over time. As a result of the acquisition of Shaw Communications Inc. (Shaw, and the Shaw Transaction) on April 3, 2023, our adjusted net debt increased due to the drawings on our \$6 billion term loan facility, the debt assumed from Shaw, and the use of restricted cash, and our debt leverage ratio increased correspondingly. In order to meet our stated objective of returning our debt leverage ratio to approximately 3.5 within 36 months of closing the Shaw Transaction, we intend to manage our debt leverage ratio through combined operational synergies, organic growth in adjusted EBITDA, proceeds from asset sales, and debt repayment, as applicable. As at March 31, 2024 and December 31, 2023, we met our objectives for these metrics.

	As at March 31	As at December 31
(In millions of dollars, except ratios)	2024	2023
Adjusted net debt ¹	43,432	43,134
Divided by: trailing 12-month adjusted EBITDA	9,144	8,581
Debt leverage ratio	4.7	5.0

¹ For the purposes of calculating adjusted net debt, we believe adjusting 50% of the value of our subordinated notes is appropriate as this methodology factors in certain circumstances with respect to priority for payment and this approach is commonly used to evaluate debt leverage by rating

Free cash flow

We use free cash flow to understand how much cash we generate that is available to repay debt or reinvest in our business, which is an important indicator of our financial strength and performance.

¹ Other adjustments consists of post-employment benefit contributions, net of expense, cash flows relating to other operating activities, and other investment income from our financial statements.

Available liquidity

Available liquidity fluctuates based on business circumstances. We continually manage, and aim to have sufficient, available liquidity at all times to help protect our ability to meet all of our commitments (operationally and for maturing debt obligations), to execute our business plan (including to acquire spectrum licences or consummate acquisitions), to mitigate the risk of economic downturns, and for other unforeseen circumstances. As at March 31, 2024 and December 31, 2023, we had sufficient liquidity available to us to meet this objective.

Below is a summary of our total available liquidity from our cash and cash equivalents, bank credit facilities, letter of credit facilities, and short-term borrowings, including our receivables securitization program and our US dollar-denominated commercial paper (US CP) program.

Our Canada Infrastructure Bank credit agreement is not included in available liquidity as it can only be drawn upon for use in broadband projects under the Universal Broadband Fund, and therefore is not available for other general purposes.

NOTE 4: SEGMENTED INFORMATION

Our reportable segments are Wireless, Cable, and Media. All three segments operate substantially in Canada. Corporate items and eliminations include our interests in businesses that are not reportable operating segments, corporate administrative functions, and eliminations of inter-segment revenues and costs. We follow the same accounting policies for our segments as those described in note 2 of our 2023 financial statements. Segment results include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. We account for transactions between reportable segments in the same way we account for transactions with external parties, however eliminate them on consolidation.

The Chief Executive Officer and Chief Financial Officer of RCI are, collectively, our chief operating decision maker and regularly review our operations and performance by segment. They review adjusted EBITDA as the key measure of profit for the purpose of assessing performance of each segment and to make decisions about the allocation of resources. Adjusted EBITDA is defined as income before depreciation and amortization; (gain) loss on disposition of property, plant and equipment; restructuring, acquisition and other; finance costs; other (income) expense; and income tax expense.

	2024	2023
Restructuring and other	112	22
Shaw Transaction-related costs	30	33
Total restructuring, acquisition and other	142	55

The Shaw Transaction-related costs in 2023 and 2024 consisted of incremental costs supporting acquisition (in 2023) and integration activities (in 2023 and 2024) related to the Shaw Transaction.

The restructuring and other costs in 2023 and 2024 were primarily severance and other departure-related costs associated with the targeted restructuring of our employee base, which also included costs associated with a voluntary departure program in 2024. These costs also included costs related to real estate rationalization programs.

Weighted average number of shares outstanding - diluted	533	507
Earnings per share:		
Basic	\$0.48	\$1.01
Diluted	\$0.46	\$1.00

For the three months ended March 31, 2024 and 2023, accounting for outstanding share-based payments using the equity-settled method for stock-based compensation was determined to be more dilutive than using the cash-settled method. As a result, net income for the three months ended March 31, 2024 was reduced by \$13 million (2023 - \$2 million) in the diluted earnings per share calculation.

A total of 8,912,494 options were out of the money for the three months ended March 31, 2024 (2023 - 6,540,217). These options were excluded from the calculation of the effect of dilutive securities because they were anti-dilutive.

NOTE 11: FINANCIAL INSTRUMENTS

Derivative Instruments

We use derivative instruments to manage financial risks related to our business activities. These include debt derivatives, interest rate derivatives, expenditure derivatives, and equity derivatives. We only use derivatives to manage risk and not for speculative purposes.

All of our currently outstanding debt derivatives related to our senior notes, senior debentures, subordinated notes, and lease liabilities, as well as our expenditure derivatives have been designated as hedges for accounting purposes.

Debt derivatives

We use cross-currency interest rate exchange agreements, forward cross-currency interest rate exchange agreements, and foreign currency forward contracts (collectively, debt derivatives) to manage risks from fluctuations in foreign exchange rates and interest rates associated with our US dollar-denominated senior notes, debentures, subordinated notes, lease liabilities, credit facility borrowings, and US CP borrowings (see note 15). We typically designate the debt derivatives related to our senior notes, debentures, subordinated notes, and lease liabilities as hedges for accounting purposes against the foreign exchange risk or interest rate risk associated with specific issued and forecast debt instruments. Debt derivatives related to our credit facility and US CP borrowings have not been designated as hedges for accounting purposes.

Below is a summary of the debt derivatives we entered into and settled related to our credit facility borrowings and US CP program during the three months ended March 31, 2024 and 2023.

(In millions of dollars, except exchange rates)	Three months ended March 31, 2024			Three months ended March 31, 2023

As at March 31, 2024, we had US\$924 million and US\$306 million notional amount of debt derivatives outstanding relating to our credit facility borrowings and US CP program (December 31, 2023 - US\$3,241 million and US\$113 million) at an average rate of \$1.358/US\$ (December 31, 2023 - \$1.352/US\$) and \$1.349/US\$ (December 31, 2023 - \$1.369/US\$), respectively.

Senior notes

Below is a summary of the debt derivatives we entered into related to senior notes during the three months ended March 31, 2024. We did not enter into any debt derivatives related to senior notes issued during 2023.

Effective date	US\$			Hedging effect	
	Principal/Notional amount (US\$)	Maturity date	Coupon rate	Fixed hedged (Cdn\$) interest rate ¹	Equivalent (Cdn\$)

February 9, 2024	1,250	2034	5.300 %	5.107 %	1,683

In March 2023, we settled the derivatives associated with our US\$1 billion senior notes due 2025, which were not designated as hedges for accounting purposes. We subsequently entered into new derivatives associated with those senior notes, which we designated as hedges for accounting purposes. We received a net \$60 million relating to these transactions.

As at March 31, 2024, we had US\$17,250 million (December 31, 2023 - US\$14,750 million) in US dollar-denominated senior notes, debentures, and subordinated notes, of which all of the associated foreign exchange risk had been economically hedged using debt derivatives, at an average rate of \$1.272/US\$ (December 31, 2023 - \$1.259/US\$).

Lease liabilities

Below is a summary of the debt derivatives we entered into and settled related to our outstanding lease liabilities for the three months ended March 31, 2024 and 2023.

(In millions of dollars, except exchange rates)	Three months ended March 31, 2024			Three months ended March 31, 2023

Debt derivatives entered	77	1.351	104	35	1.371	48
Debt derivatives settled	48	1.313	63	33	1.333	44

As at March 31, 2024, we had US\$386 million notional amount of debt derivatives outstanding relating to our outstanding lease liabilities (December 31, 2023 - US\$357 million) with terms to maturity ranging from April 2024 to March 2027 (December 31, 2023 - January 2024 to December 2026), at an average rate of \$1.334/US\$ (December 31, 2023 - \$1.329/US\$).

Expenditure derivatives

We use foreign currency forward contracts (expenditure derivatives) to manage the foreign exchange risk in our operations, designating them as hedges for accounting purposes for certain of our forecast operational and capital expenditures.

Below is a summary of the expenditure derivatives we entered into and settled during the three months ended March 31, 2024 and 2023.

(In millions of dollars, except exchange rates)	Three months ended March 31, 2024			Three months ended March 31, 2023

Expenditure derivatives entered	90	1.311	118	210	1.329	279
Expenditure derivatives settled	285	1.326	378	225	1.244	280

As at March 31, 2024, we had US\$1,455 million notional amount of expenditure derivatives outstanding (December 31, 2023 - US\$1,650 million) with terms to maturity ranging from April 2024 to December 2025 (December 31, 2023 - January 2024 to December 2025), at an average rate of \$1.324/US\$ (December 31, 2023 - \$1.325/US\$).

Equity derivatives

We use total return swaps (equity derivatives) to hedge the market price appreciation risk of the RCI Class B Non-Voting common shares (Class B Non-Voting Shares) granted under our stock-based compensation programs. The equity derivatives have not been designated as hedges for accounting purposes.

As at March 31, 2024, we had equity derivatives outstanding for 6.0 million (December 31, 2023 - 6.0 million) Class B Non-Voting Shares with a weighted average price of \$54.02 (December 31, 2023 - \$54.02).

In April 2024, we executed extension agreements for our equity derivative contracts under substantially the same commitment terms and conditions with revised expiry dates to April 2025 (from April 2024) and the weighted average cost was adjusted to \$53.27 per share.

Fair Values of Financial Instruments

The carrying value of cash and cash equivalents, accounts receivable, bank advances, short-term borrowings, and accounts payable and accrued liabilities approximate their fair values because of the short-term nature of these financial instruments. The carrying value of our lease liabilities approximates their fair value because the discount rate used to calculate them approximates our current borrowing rate. The carrying values of our financing receivables also approximate their fair values based on our recognition of an expected credit loss allowance.

We determine the fair value of our private investments by using implied valuations from follow-on financing rounds, third-party sale negotiations, or using market-based approaches. These are applied appropriately to each investment depending on its future operating and profitability prospects.

The fair values of each of our public debt instruments are based on the period-end estimated market yields, or period-end trading values, where available. We determine the fair values of our debt derivatives and expenditure derivatives using an estimated credit-adjusted mark-to-market valuation by discounting cash flows to the measurement date. In the case of debt derivatives and expenditure derivatives in an asset position, the credit spread for the financial institution counterparty is added to the risk-free discount rate to determine the estimated credit-adjusted value for each derivative. For those debt derivatives and expenditure derivatives in a liability position, our credit spread is added to the risk-free discount rate for each derivative.

The fair values of our equity derivatives are based on the quoted market value of Class B Non-Voting Shares.

Our disclosure of the three-level fair value hierarchy reflects the significance of the inputs used in measuring fair value:

- financial assets and financial liabilities in Level 1 are valued by referring to quoted prices in active markets for identical assets and liabilities;
- financial assets and financial liabilities in Level 2 are valued using inputs based on observable market data, either directly or indirectly, other than the quoted prices; and
- Level 3 valuations are based on inputs that are not based on observable market data.

There were no financial instruments in Level 1 as at March 31, 2024 or December 31, 2023. There were no transfers between Level 1, Level 2, or Level 3 during the three months ended March 31, 2024 or 2023.

Senior Notes

Issuance of senior notes and related debt derivatives

Below is a summary of the senior notes we issued during the three months ended March 31, 2024. We did not issue senior notes during the three months ended March 31, 2023.

(In millions of dollars, except interest rates and discounts)						
Date issued	Principal amount	Due date	Interest rate	Discount/premium at issuance	Total gross proceeds ¹ (Cdn\$)	Transaction costs and discounts ² (Cdn\$)
<i>2024 issuances</i>						
February 9, 2024	US 1,250	2029	5.000 %	99.714 %	1,684	20
February 9, 2024	US 1,250	2034	5.300 %	99.119 %	1,683	30

¹ Gross proceeds before transaction costs, discounts, and premiums.

² Transaction costs, discounts, and premiums are included as deferred transaction costs and discounts in the carrying value of the long-term debt, and recognized in net (loss) income using the effective interest method.

In February 2024, we issued senior notes with an aggregate principal amount of US\$2.5 billion, consisting of US\$1.25 billion of 5.00% senior notes due 2029 and US\$1.25 billion of 5.30% senior notes due 2034. Concurrent with the issuance, we entered into debt derivatives to convert all interest and principal payment obligations to Canadian dollars. As a result, we received net proceeds of US\$2.46 billion (\$3.32 billion). We used the proceeds from this issuance to repay \$3.4 billion of our term loan facility such that only \$1 billion remains outstanding under the April 2026 tranche.

Repayment of senior notes and related derivative settlements

In January 2024, we repaid the entire outstanding principal of our \$500 million 4.35% senior notes at maturity. In March 2024, we repaid the entire outstanding principal of our \$600 million 4.00% senior notes at maturity. There were no derivatives associated with these senior notes.

On January 2, 2024, we issued 1.2 million Class B Non-Voting Shares as partial settlement of the dividend payable on that date under the terms of our dividend reinvestment plan (DRIP). On April 3, 2024, we issued 1.6 million Class B Non-Voting Shares as partial settlement of the dividend payable on that date under the terms of our DRIP.

On April 23, 2024, the Board declared a dividend of \$0.50 per Class A Share and Class B Non-Voting Share to be paid on July 5, 2024 to shareholders of record on June 10, 2024.

The holders of Class A Shares are entitled to receive dividends at the rate of up to five cents per share but only after dividends at the rate of five cents per share have been paid or set aside on the Class B Non-Voting Shares. Class A Shares and Class B Non-Voting Shares therefore participate equally in dividends above five cents per share.

NOTE 19: RELATED PARTY TRANSACTIONS

Controlling Shareholder

We enter into certain transactions with private companies controlled by the controlling shareholder of RCI, the Rogers Control Trust. These transactions were recognized at the amount agreed to by the related parties and are subject to the terms and conditions of formal agreements approved by the Audit and Risk Committee. The totals received or paid during the three months ended March 31, 2024 and 2023 were less than \$1 million, respectively.

Transactions with Related Parties

We have entered into business transactions with Dream Unlimited Corp. (Dream), which is controlled by our Director Michael J. Cooper. Dream is a real estate company that rents spaces in office and residential buildings. Total amounts paid to this related party were nominal for the three months ended March 31, 2024 and 2023.

On closing of the Shaw Transaction, we entered into an advisory agreement with Brad Shaw in accordance with the arrangement agreement, pursuant to which he will be paid \$20 million for a two-year period following closing in exchange for performing certain services related to the transition and integration of Shaw, of which \$3 million was recognized in net income and paid during the three months ended March 31, 2024. We have also entered into

certain other transactions with the Shaw Family Group. Total amounts paid to the Shaw Family Group during the three months ended March 31, 2024 were under \$1 million.

In addition, we assumed a liability through the Shaw Transaction related to a legacy pension arrangement with one of our directors whereby the director will be paid \$1 million per month until March 2035, \$3 million of which was paid during the three months ended March 31, 2024. The remaining liability of \$96 million is included in "accounts payable and accrued liabilities" (for the amount to be paid within the next twelve months) or "other long-term liabilities".

We recognized these transactions at the amounts agreed to by the related parties, which were also approved by the Audit and Risk Committee. The amounts owing for these services were unsecured, interest-free, and generally due for payment in cash within one month of the date of the transaction.

NOTE 20: COMMITMENTS

During the three months ended March 31, 2024, we extended an agreement with a Cable service provider, resulting in an increase in our contractual commitments of approximately \$1.8 billion over the next ten years compared to our disclosure as at December 31, 2023. We also paid \$95 million during the three months ended March 31, 2024 relating to the 3800 MHz spectrum licences won at auction in late 2023. We expect to make the final payment of \$380 million on May 29, 2024.
